

Profil Perusahaan

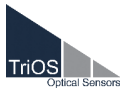

Berdiri sejak tahun 1991, **PT Unitek Standarindo Engineering** terus memberikan solusi *design, supply and service* peralatan teknik untuk berbagai industry.

Solusi Produk dan Partner

*Combustion
Burner*

Gas Tester

*Water
Analyzer*

*Magnetic Separator &
Metal Detector*

GAUSS

MSI

Magnetic Systems International

EAB

System Integration

Kami dapat memberikan saran mengenai pemilihan produk, desain sistem yang sesuai dengan aplikasi dan pemasangan di lokasi Anda. *System integration* dapat dikerjakan di *workshop* kami di Tangerang, Jawa Barat.

Workshop

**Integrated Skid with Control Panel for
Gas Burner Valve Train**

PT UNITEK STANDARINDO ENGINEERING

Office: Jl. Pangeran Jayakarta 44 / 29, Jakarta 10730, Indonesia.

Honeywell

Honeywell Thermal Solutions

Honeywell Thermal Solutions (HTS) memiliki instalasi pembakar, katup, sensor, dan kontrol terpasang terbesar di dunia. Dengan lebih dari 100 tahun inovasi terdepan di industri dan pengalaman di lapangan, HTS menyediakan solusi untuk memaksimalkan produktifitas, keselamatan kerja, sekaligus mengurangi biaya pemasangan dan pemeliharaan.

Riello Burner

Bermula dari mengembangkan *light oil burner* untuk oven pembuat roti di masa krisis ekonomi setelah perang dunia pertama di Italia, Riello kini memproduksi berbagai macam *burner* untuk aplikasi perumahan, komersial, dan industri, untuk operasi *single-stage*, *dual-stage*, ataupun *modulating*.

Riello memiliki filosofi untuk terus mengembangkan inovasi dan keberlanjutan, dan sekarangpun terus merilis produk baru seperti untuk aplikasi *burner low NOx*, *ultra low NOx* dan *Hydrogen-ready*.

Riello ***monoblock burner*** mengintegrasikan *blower* udara, katup-katup dan aksesoris lainnya ke badan *burner* untuk menghasilkan *burner* yang kompak dan sederhana.

Oil burner

Gas burner

Dual-fuel burner

Low NOx burner

Kane Flue Gas Tester

Salah satu pemasok terkemuka di *United Kingdom (UK)* untuk alat ukur gas buang portabel dan alat uji emisi gas buang kendaraan bermotor yang berdiri sejak 1954. Kane *Flue Gas Analyzer (FGA)* telah tersertifikasi sesuai dengan EN50379 oleh TUV.

Kane 258	Kane 358	Kane 458s
		
Domestic Oil, Gas & Biomass analyzer. O₂, CO & over range protection, calculates CO₂. Easy to use rotary dial & large display. Protective magnetic hands free case. Wireless now standard to KANE LIVE mobile Android/ iOS app. Inclusive of gas sampling probe (max 600 deg celcius) with integral temperature sensor and sampling hose (2 meters), water trap and filter. Datalogging.		
Printer, smoke test kit & high temperature sampling probes are available as additional accessories.		
Fuel: Natural Gas, LPG, Wood Pellets, Butane, Light oil, Propane		
	Pressure, tightness, let by, 2 minutes appliance sweep test.	Pressure, tightness, let by, 2 minutes appliance sweep test.
		Option to measure NO to test NO_x to 600ppm & CO to 10,000ppm
		KANE LINK wireless measurement.

PT UNITEK STANDARINDO ENGINEERING

Office: Jl. Pangeran Jayakarta 44 / 29, Jakarta 10730, Indonesia.

Telp: (021) 6264806, 6289456, 6018081; Fax: (021) 6264807; Email: info@unitek.co.id ; Web: <https://unitek.co.id>

Kane Flue Gas Tester

Kane 958	Kane 988	Kane 9206 Quintox
		
Boiler & Heat Pump analyser with KANE-LINK. Test boilers to 5MW & 50mbar stack draught. O2 & CO to 10,000ppm with H2 compensation (with over range protection), calculates CO2. 2 toxic gas sensor options (NO and/or NO2 to test NOx, SO2). Pressure, tightness & let-by test. See, save & send results to KANE LIVE mobile Android/ iOS app. High capacity water trap & particle filter. Inclusive of gas sampling probe (max 600 deg celcius) with integral temperature sensor and sampling hose (2 meters). Datalogging.		
Printer, smoke test kit & high temperature sampling probes are available as additional accessories. NO2 & SO2 gas conditioning sampling system is available as accessory.		
Fuel: Natural Gas, LPG & Biogas, Propane & Butane, Light & Heavy Oil, Coke, Coal & Wood pellets.		
	Fuel: additional Kinsale Gas, Natural Gas L, Town Gas, Gas Cor, Anthracite, 5x User defined fuels.	
	Test boilers > 5MW boiler / 50 mbar draught High temperature gas sampling probe (max 1250 deg celcius)	
	4 (instead of 2) toxic gases option with CO2, H2S and Hydrocarbon measurement capability. CO to 10%.	9 (instead of 2) toxic gases option with CO2, H2S and Hydrocarbon measurement capability. CO 10%.
		Long term unattended testing. Large internal memory to store up to 64,000 tests. Automatic fresh air purge & self draining water trap option. Cold condition tests with optional heater

Electro-Chemical Devices

Electro-Chemical Devices (ECD) adalah produsen instrumentasi alat ukur air, didirikan pada tahun 1977. Produk ECD telah digunakan untuk berbagai industry dan aplikasi yang luas dan menuntut seperti:

- Pengolahan Air Bersih & Air Limbah (*water & wastewater*),
- Makanan & Minuman (*food & beverages*),
- Farmasi (*pharmaceutical*),
- Semikonduktor (*semiconductor*),
- Pembangkit Listrik (*power generation*),
- Minyak dan gas (*oil and gas*),
- Kimia (*chemical*),
- Pertambangan (*mining*),
- Pulp & Kertas (*pulp & paper*),
- Baja (*steel*).

Electro-Chemical Devices

T80 Controller

LQ800 Controller

**X80 Controller
(hazardous area)**

S80 Sensors

Parameters: pH, ORP, pION, Dissolved Oxygen, Conductivity, Resistivity.

pION: Ammonia (NH₃), Ammonium (NH₄), Bromide (Br), Cadmium (Cd), Calcium (Ca), Chloride (Cl), Cyanide (CN), Cupric (Cu), Fluoride (F), Lead (Pb), Nitrate (NO₃), Nitrite (NO₂), Potassium (K), Silver (Ag), Sodium (Na), Sulfide (S)

- Intelligent Sensor Design with digital communication, stores measurement, calibration Information.
- Application Specific Electrode Cartridges, long life and easily replaceable.
- Insertion/Submersion with flow cells, adjustable gland fittings and Valve Retractable.
- Wide Variety of Industrial Materials of Construction sizes and lengths.
- Available for hazardous area (ATEX and IECEx or FM approved).

Application Specific pH Electrode Cartridges

Type	Wetted Materials	Description	Application	Measurement and design features
GP	PES, PTFE, Glass, VITON	General Purpose	environmental water, rinse water, cooling water, municipal WW	General purpose
HT CYCLE	PEEK, Ceramic, Glass, EPR	General Purpose, High temperature cycles	Scrubbers on waste incinerators, Temperature cycling applications	Reduced reference fouling in temperature cycling applications
HPW	PES, PTFE, Glass, EPR	High Purity Water	Boiler water, Low conductivity water	Long term stability in low conductivity water, below 5µS expect high drift
SUGAR	PES, PTFE, Glass, VITON	Non-Conductive Solutions	Corn Syrup, Sugar and Starch solutions	Stable reference signal in low conductivity, below 5µS expect high drift, high dissolved solids
HI TEMP	PEEK, PTFE, Glass, VITON	High Temperature	Industrial waste treatment	high temperature, acid or alkaline solutions, no metal ions that react with Chloride
SCRUB	PEEK, PTFE, Glass, VITON	Chemical Resistant Flat glass	Wet Gas Scrubbers	high temperature, acid or alkaline solutions, resistant to metals and sulfides, easily cleaned

Type	Wetted Materials	Description	Application	Measurement and design features
SR	PEEK, PTFE, Glass, VITON	Chemical Resistant rugged glass	Industrial waste treatment, sulfide present	high temperature, acid or alkaline solutions, resistant to metals and sulfides, rugged glass
SLUR	PEEK, PTFE, Glass, VITON	Chemical Resistant recessed glass	Slurries and abrasive solutions	high temperature, acid or alkaline solutions, resistant to metals and sulfides, pH glass protected from impact
SOLR	PEEK, PTFE, Glass, Extreme	Solvent Resistant	Wastewater with trace solvents	Solutions with trace amounts of organic solvents present
FLR	PEEK, PTFE, Glass, VITON	Fluoride Resistant	Semiconductor waste treatment,	Thick pH glass for use in HF acid treatment baths
ANT	PES, PTFE, Sb, VITON	Antimony	3-10 pH, No Glass	Non glass metallic electrode, only aerated solutions between 3-10 pH

PT UNITEK STANDARINDO ENGINEERING

Office: Jl. Pangeran Jayakarta 44 / 29, Jakarta 10730, Indonesia.

Telp: (021) 6264806, 6289456, 6018081; Fax: (021) 6264807; Email: info@unitek.co.id ; Web: <https://unitek.co.id>

Electro-Chemical Devices

Model 80 (chlorine free or total, seawater chlorine, Chlorine dioxide, Hydrogen peroxide, Peracetic acid, Ozone). Also available for hazardous area.

DO82 or DO90
(dissolved oxygen)

TR82 or TR80
Turbidity or TSS (total suspended solids) with autocleaning & debubbler flow cell

CE 800
Cationic conductivity (degassed)

Hydra-DS
Ammonium or Nitrate

UV 80
Organic substance

OIW 80
Oil in water

CA900
Titration
• Alkalinity,
Fluoride,
Sulfide

NA600
Sodium

3S-TOC
Total Organic Carbon

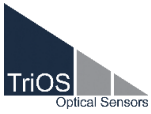

CA6 Colorimetric
Aluminum, Ammonia, Chlorine, Chloride, Chromium VI, Copper, Cyanide, Hardness, Hydrazine, Iron, Manganese, Nickel, Nitrate, Nitrite, Phosphate, Total Phosphate, Silica, Sulfate, Zinc

AQUA
Water Sampler
Stationary or Portable

TriOS

TriOS adalah produsen sensor air *optical online* yang terpercaya. Berdiri sejak 1998 di Jerman, perusahaan ini terus berinovasi dan menjadi salah satu perusahaan terdepan dalam teknologi-nya.

Trios dapat mendukung aplikasi pengukuran baku mutu air, seperti di:

- Air baku sungai, danau, laut (*Surface water river, lake, sea water*)
- Pengolahan Air (*Water Treatment*)
- Pengolahan Air Limbah (*Wastewater Treatment*)
- Air Industri (*Industrial Water*)

**Produk untuk
Aplikasi "SPARING" di
Indonesia**

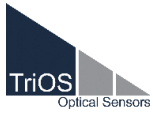

Sensor TriOS diproduksi secara kuat sehingga sensor versi laut dalam-nya mampu bertahan dalam tekanan hingga 600 bar. Sensor TriOS menggunakan daya rendah dan dapat dihubungkan langsung ke *datalogger* eksternal. Berbagai *optical pathlength* sensor juga tersedia untuk melayani berbagai *range* pengukuran yang dibutuhkan air baku, air limbah/proses, atau air bersih.

TriOS

OPUS
COD, BOD, DOC, TOC,
NO₃ (Nitrate), NO₂
(Nitrite), TSS

LISA-UV
COD, BOD, DOC, TOC,
Turbidity, TSS

LISA-Color
DIN EN ISO 7887 /
APHA Hazen Pt-Co / Cr-
Co

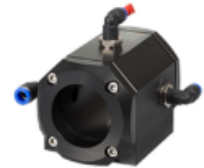

enviroFlu
Oil in water (PAH), BTX

microFlu V2
Algae, Chlorophyll, CDOM,
Cyanobacteria, Rhodamine,
Phycocyanin, Tryptophan

Wiper W55

FlowCell

eCHEM
pH, Conductivity / TDS, DO, Chlorine, Turbidity / TSS

TriBox Mini

TriBox 3

TW Master Series Turbidity, pH, Conductivity (more is planned in future)

GAUSS

Magnetic Separator & Metal Detector

MSI **EAB**
Magnetic Systems International

Kami dapat menyediakan berbagai produk standard siap pakai atau produk *customized* sesuai kebutuhan.

Rod magnet

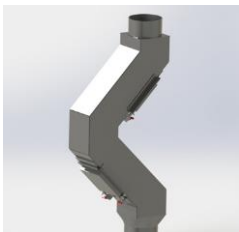

Plate magnet

Grate magnet

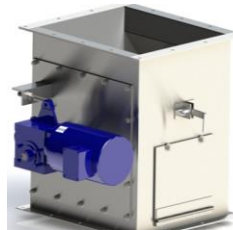

**Housing magnet
(static or rotating)**

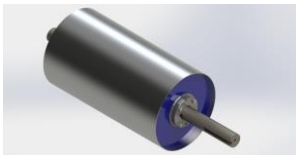

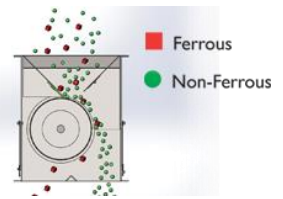

Hump (chute) magnet

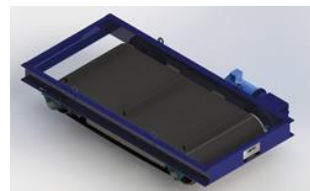

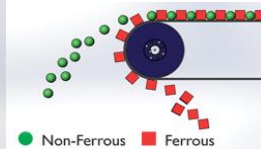

Liquid Trap

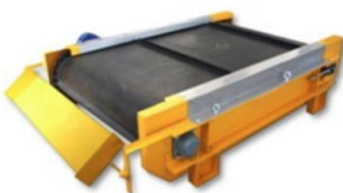

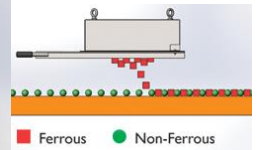

Drum magnet

Pulley magnet

Suspended magnet

Eddy current separator

Lifting magnet

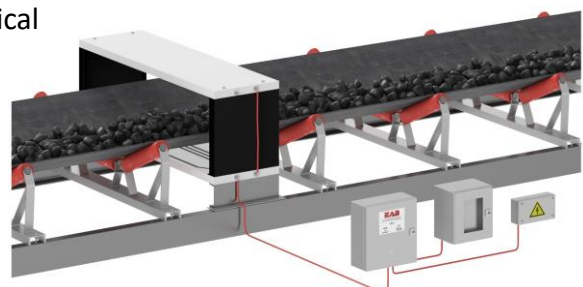

Magnetic sweeper

**Metal detector for
Food & Pharmaceutical
products**

**Metal detector for
Heavy industry**
